The Letter to Shareholders contained in this Annual Report are the opinions of the Funds' portfolio managers and are not the opinions of TCW Alternative Funds or its Board of Trustees. Various matters discussed in the Letter to Shareholders constitute forward-looking statements within the meaning of the federal securities laws. Actual results and the timing of certain events could differ materially from those projected or contemplated by these forward-looking statements due to a number of factors, including general economic conditions, overall availability of securities for investment by a Fund, the level of volatility in the securities markets and in the share price of a Fund, and other risk factors discussed in the SEC filings of TCW Alternative Funds. The data presented in the Letter to Shareholders represents past performance and cannot be used to predict future results.

Letter to Shareholders

David S. DeVito
President and Chief Executive Officer

Dear Valued Investors:

It is my pleasure to present the 2017 annual report for the TCW Alternative Funds covering the 12-month period ended October 31, 2017. I would like to express our appreciation for your continued investment in the TCW Alternative Funds as well as welcome new shareholders to our fund family.

This report contains information and portfolio management discussions for our four TCW Alternative Funds.

The TCW Alternative Funds Family

In today's market environment, investors are increasingly looking for returns that have low correlation to standard equity and bond allocations, mitigate volatility, and increase overall portfolio diversification. The TCW Alternative Funds family offers shareholders' funds that display risk and return characteristics that differ from traditional investments.

Market Summary

For the 12-month period ended October 31, 2017, the U.S. economy has continued to grow at a solid pace, realizing 3.0% annual growth in 3Q 2017 after growing 3.1% in the prior quarter – the best back-to-back quarters in three years. Importantly, manufacturing activity reached a 13-year high. At the same time, the labor market continued to show improvement with weekly jobless claims hitting their lowest level in 44 years and the unemployment rate dipping to a 16-year low. The global backdrop continued to be supportive, with Europe, Japan, and China also reporting generally solid macro data. This has been reflected in the markets, where over the past year we saw most major equity indices post remarkable double-digit gains. However, the performance distribution was bifurcated, with growth indices outperforming their corresponding value indices. The past year has been a period in the markets characterized by large gains and low volatility, with volatility bouncing back and forth off historically low levels (as measured by the CBOE Volatility Index ("VIX")).

Heading into the next fiscal year, our view is that over time, the disparity in performance will reverse. Value stocks have historically outperformed the broader markets, and we expect a reversion as (i) expectations

for earnings growth and tax reform in the U.S. are now likely to be meaningfully priced in, and (ii) valuations in value-oriented stocks are now more attractive from a relative standpoint. However, it is difficult to have any confidence with regard to the precise timing of a potential reversal – the "beta/growth/high-tech/pro-cyclical" rally could last as long as the macro-economic data are supportive, a period which could continue through a number of quarters.

An Update on the TCW Alternative Funds

There was an update to our fund family over the past twelve months that we would like to note for our investors:

- Effective February 28, 2017, TCW launched the TCW | Gargoyle Dynamic 500 Collar Fund (TFCSX/TFCNX) and TCW | Gargoyle Dynamic 500 Market-Neutral Fund (TFMSX/TFMNX).
- Effective September 29, 2017, TCW launched the TCW Long/Short Fundamental Value Fund (TFFSX/TFFNX).

We know that you have many choices when it comes to the management of your financial assets. On behalf of everyone at TCW, I would like to thank you for making the TCW Alternative Funds family part of your long-term investment plan. We truly value our relationship with you. If you have any questions or require further information, I invite you to visit our website at www.tcw.com, or call our shareholder services department at (866) 858-4338.

I wish you all the best in the coming new year and I look forward to further correspondence with you through our semi-annual report in 2018.

Sincerely,

David S. DeVito
President and Chief Executive Officer

TCW | Gargoyle Dynamic 500 Fund

Management Discussions

For the year ended October 31, 2017, the TCW | Gargoyle Dynamic 500 Fund (the “Fund”) gained 14.22% and 13.88% for its I Class and N Class shares, respectively. The performance of the Fund's classes varies because of differing expenses. During the same period, the CBOE S&P 500 Buy/Write Index (“BXM”) rose 13.26%..

We are very pleased with the performance for the period as the Fund, which targets a 50% long-market exposure, captured 60% of the S&P 500 Total Return Index's strong performance and outperformed the benchmark CBOE S&P 500 Buy/Write Index (“BXM”) on a net basis. The Fund also beat the Morningstar Option Writing category (+9.03%) by more than 5% for the 12-month period.

The Fund seeks long-term capital appreciation by remaining fully invested in the S&P 500 Index or its equivalent, and selling SPX index call options (the “Options Portfolio”) in an effort to increase the Fund's income, reduce the volatility of its returns and, in general, improve the reward/risk of the underlying portfolio. The Fund seeks to maintain a net market exposure of between 35% and 65%.

We are encouraged by the performance of the Fund in an environment that experienced a number of volatile market movements, notably the post-election rally and sharp move up in the summer. Given those volatile market movements, it was not an ideal environment for the Fund because of its strategy to remain hedged at all times, which can lead to the need to sell into market weakness and cover on market strength.

We remain optimistic that we can continue to achieve our long-term objective of realizing superior risk-adjusted returns by taking advantage of the overpriced nature of index options and maintaining a hedged position in the S&P 500 Index.

TCW Gargoyle Dynamic 500 Fund	Average Annualized Total Return ⁽¹⁾ As of October 31, 2017	
	1 Year	Since Inception
I Class (Inception: 11/30/2015)	14.22%	9.20%
CBOE S&P 500 BuyWrite Index	13.26%	8.73%
N Class (Inception: 11/30/2015)	13.88%	8.90%
CBOE S&P 500 BuyWrite Index	13.26%	8.73%

(1) The total returns do not reflect taxes that a shareholder would pay on fund distributions or on the redemption of fund shares.

Management Discussions (Continued)

TCW | Gargoyle Dynamic 500 Fund - I Class

TCW | Gargoyle Dynamic 500 Fund - N Class

** Inception date of the Fund was 11/30/2015.

TCW | Gargoyle Dynamic 500 Collar Fund

Management Discussions

For the period February 28, 2017 (inception date) through October 31, 2017, the TCW | Gargoyle Dynamic 500 Collar Fund (the “Fund”) gained 2.20% and 2.10% for its I Class and N Class shares, respectively. The performance of the Fund's classes varies because of differing expenses. During the same period, the CBOE S&P 500 95-110 Collar Index (“CLL”) rose 7.33% and the Morningstar Option Writing category returned 4.56%.

The Fund seeks long-term capital appreciation by remaining fully invested in the S&P 500 Index or its equivalent, selling SPX index call options, buying SPX index put options, and dynamically managing this Options Portfolio in an effort to maintain a relatively consistent market exposure and generate long-term capital appreciation while reducing the impact of significant market declines.

We remain optimistic that we can continue to achieve our long-term objective of realizing superior risk-adjusted returns by taking advantage of index options mispricing and maintaining a hedged position in the S&P 500 Index.

	<u>Cumulative Total Return ⁽¹⁾</u> <u>As of October 30, 2017</u>
	<u>Since</u> <u>Inception</u>
<u>TCW Gargoyle Dynamic 500 Collar Fund</u>	
I Class (Inception: 02/28/2017)	2.20%
CBOE S&P 500 95-110 Collar Index	7.33%
N Class (Inception: 02/28/2017)	2.10%
CBOE S&P 500 95-110 Collar Index	7.33%

(1) The total returns do not reflect taxes that a shareholder would pay on fund distributions or on the redemption of fund shares.

** Inception date of the Fund was 02/28/2017.

TCW | Gargoyle Dynamic 500 Market-Neutral Fund

Management Discussions

For the period February 28, 2017 (inception date) through October 31, 2017, the TCW | Gargoyle Dynamic 500 Market-Neutral Fund (the “Fund”) gained 3.00% and 2.80% for its I Class and N Class shares, respectively. The performance of the Fund's classes varies because of differing expenses. During the same period, the CBOE VIX Strangle Index (“VSTG”) fell -3.41% and the Morningstar Option Writing category returned +4.56%.

The Fund seeks long-term capital appreciation by remaining fully invested in the S&P 500 Index or its equivalent, and selling and dynamically managing a portfolio of SPX index call options (the “Options Portfolio”) in an effort to neutralize market impact and generate long-term capital appreciation regardless of the movement in the S&P 500 Index.

We are highly encouraged by the Fund's performance versus its benchmark VSTG and we remain optimistic that we can continue to achieve our long-term objective of realizing superior risk-adjusted returns by taking advantage of the overpriced nature of index options and maintaining a hedged position in the S&P 500 Index.

TCW | Gargoyle Hedged Value Fund

Management Discussions

For the year ended October 31, 2017, the TCW | Gargoyle Hedged Value Fund (the “Fund”) returned 11.34% and 11.12% for its I Class and N Class shares, respectively. The performance of the Fund’s classes varies because of differing expenses. During the same period, the S&P 500 Total Return Index (“SPXT”) rose 23.63% and the Russell 1000 Value Index (“RLV”) was up 17.78%.

With a targeted 50% net-long market exposure the Fund captured 48% of the SPXT and 64% of the RLV return for the 12-month period. We are pleased with the Fund’s value methodology as the Fund’s gross Stock Portfolio performance of 24.02% outperformed the SPXT and RLV.

The Fund seeks long-term capital appreciation while exposing investors to less risk than broad-based stock market indices by combining two investment strategies. First, the Fund strives to be fully invested in US-listed equity securities of medium-large capitalization companies (the “Stock Portfolio”) that Gargoyle, the Fund’s sub-adviser, believes are attractively priced relative to medium-large capitalization US-listed stocks generally. Second, the Fund sells index call options (the “Options Portfolio”) against the Stock Portfolio in an effort to increase the Fund’s income, reduce the volatility of its returns and, in general, improve the reward/risk of the Stock Portfolio. The Fund seeks to maintain a net market exposure of between 35% and 65%.

Recent performance allowed the Fund to regain a 4-Star rating in the Morningstar option writing category for the period ending October 31, 2017. The past year can be characterized as a year in which large capitalization, positive momentum stocks led the market higher, as evidenced by the nearly 6% outperformance of the SPXT vs. the RLV. The environment in the fiscal year was not an ideal one for the Fund because our relative-value strategy typically buys stocks that are temporarily out of favor with investors and thus generally have a degree of negative momentum.

The Fund’s investment results for the fiscal year, however, were not uniform across sectors. The Fund’s best performing sectors were Financials, Information Technology and Industrials. The Fund had flat performance in Consumer Staples and Telecommunication Services. The Fund’s best individual performers were United Rentals, Inc. (URI), Lam Research Corporation (LRCX) and Zebra Technologies Corporation (ZBRA). The Fund’s worst performers were Endo International Plc (ENDP), Mallinckrodt Plc (MNK) and Bed Bath & Beyond, Inc. (BBBY).

The Fund’s Options Portfolio lost 11.27% (gross) for the fiscal year. This performance is in-line with expectations given the targeted 50% short-market exposure and the low implied volatility environment of the last 12 months. The premium captured for the fiscal year was somewhat hindered by a number of large moves in the market around last year’s election and again the past summer. This was particularly true for the smaller-cap Russell 2000 Index which comprises a large portion of the Fund’s hedge portfolio. The combined Stock and Option performance resulted in a gross gain of 12.75% for the Fund in fiscal 2017.

We believe the Fund stands to benefit as the market begins to focus more on relative value than growth. The Fund’s performance since the 2016 election has shown marked improvement as Value has performed better than it has in recent years. We remain optimistic that we can achieve our long-term objective of realizing above average rates of return over the next few years. Additionally, we believe the Fund can simultaneously enhance returns while continuing to decrease overall performance volatility through its index option writing strategy.

TCW | Gargoyle Hedged Value Fund - I Class

TCW | Gargoyle Hedged Value Fund

Management Discussions (Continued)

TCW | Gargoyle Hedged Value Fund - N Class

** The Fund changed its fiscal year end to October 31.

TCW | Gargoyle Systematic Value Fund

Management Discussions

For the year ended October 31, 2017, the TCW | Gargoyle Systematic Value Fund (the “Fund”) returned 20.17% and 19.70% for its I Class and N Class shares, respectively. The performance of the Fund's classes varies because of differing expenses. During the same period, the Russell Mid Cap Value Index (“RMV”) returned 17.12%.

We are pleased with the performance of the relative-value orientation and equal weighting methodology. This approach takes into account metrics other than price to book value, including sales and earnings ratios. The RMV is constructed based almost exclusively on book value and is a capitalization weighted index. The Fund seeks long-term capital appreciation by remaining fully invested in US-listed equity securities of medium-large capitalization companies that Gargoyle, the Fund's sub-adviser, believes are attractively priced relative to medium-large capitalization US-listed stocks generally.

The past twelve months can be characterized as a year in which the large capitalization, positive momentum stocks led the market higher as evidenced by the 6.5% outperformance of the S&P 500 Total Return Index (“SPXT”) (+ 23.63%) vs. the RMV. In spite of that the Fund was able to outperform its benchmark.

The Fund's investment results for the fiscal year were not uniform across sectors. The Fund's best performing sectors were Financials, Information Technology and Industrials. The Fund lost small amounts in Energy and Telecommunication Services. The Fund's best performers were Lam Research Corporation (LRCX), XPO Logistics, Inc. (XPO) and United Rentals, Inc. (URI). The Fund's worst performers were Bed Bath & Beyond (BBBY), Chicago Bridge & Iron Co. (CBI), and QEP Resources (QEP).

We believe the Fund stands to benefit as the market begins to focus more on relative value than growth. The Fund's performance since the 2016 election has shown marked improvement as Value has performed better than it has in recent years. We remain optimistic that we can achieve our long-term objective of realizing above average rates of return over the next few years.

TCW High Dividend Equities Long/Short Fund

Management Discussions

For the year ended October 31, 2017, the TCW High Dividend Equities Long/Short Fund (the “Fund”) generated returns of 7.65% and 7.41% on its I Class and N Class shares, respectively. The performance of the Fund’s classes varies because of differing expenses. The Fund’s benchmark, the S&P 500, had a positive return of 23.63% over the same period.

On an attribution basis, the Fund’s underperformance relative to its benchmark during the period was both a result of negative stock selection and sector allocation. Relative to its benchmark index, the Fund’s largest sector overweight was in Real Estate (average weight of 17.71% up 4.25% vs. an average weight of 2.90% up 9.44% for the index) hurt performance. The Fund’s largest sector underweight was in Information Technology (average weight of 5.58% up 11.13% vs. an average weight of 22.25% up 38.95% for the index), which also detracted from relative performance. From a stock selection perspective, notable detractors included Kinder Morgan (KMI) and Seritage Growth Properties (SRG). Conversely, positive contributors to the Fund’s performance included EnPro Industries (NPO) and Sinclair Broadcast Group (SBGI).

The past 2 years have been a period in the markets characterized by large gains and low volatility. The past year in particular saw most major indices post remarkable double-digit gains. However, the performance distribution was bifurcated, as the traditional high dividend sectors of the market largely failed to participate in the rally. Although Utilities were able to keep up with broader indices, other dividend focused sectors such as Consumer Staples, REITs, BDCs, and Telecoms lagged the market by a considerable amount. Given that the middle of 2016 marked a time when global markets began to price in an acceleration in economic growth, it made sense for the more beta-rich sectors to rally relative to more defensive, high dividend segments of the market. Since November 2016, the outperformance of the stock market has been further fueled by the election of President Trump, carrying with it promises of incrementally higher growth through deregulation, corporate tax reform and infrastructure spending. Again, it was clear that most dividend-payers with stable fundamentals would likely not benefit as much as more cyclically exposed, heavily regulated companies. Additionally, a substantial fraction of the S&P’s recent gains has been driven by the flows to the technology space. For example, consider that Apple, Microsoft, Amazon, Facebook and Google make up approximately 14% of the S&P and are up on average over ~40% over the past year.

Our view is that over time, the disparity in performance will reverse. High dividend stocks have historically outperformed the broader markets, and we expect a reversion as (i) expectations for earnings growth and tax reform in the U.S. are now likely to be meaningfully priced in given that markets have gained over 20% since the election, and (ii) valuations in our high-dividend sectors are now very attractive from a relative standpoint. However, as we have previously stated, it is difficult to have any confidence with regard to the precise timing of a potential reversal – the “beta/growth/high-tech/pro-cyclical” rally could last as long as the macro-economic data are supportive, a period which could continue through a number of quarters.

While our high dividend investment universe has recently fallen out of favor with investors who prefer areas with more upside capture and volatility, we continue to find pockets of compelling opportunity. For example, REITs have underperformed the broader markets meaningfully over the past year, and we believe that conditions are set for the space to rebound in relative performance over the near- to medium term. We also see opportunity in select, well managed names in the BDC space. We have high confidence that income investing is unlikely to remain out of favor for very long. There are compelling forces –

TCW High Dividend Equities Long/Short Fund

Management Discussions (Continued)

such as the robust long-term secular demographic trend of the aging of the population – which will draw investors seeking safety and yield to our areas of focus.

We thank you for your continued trust in our philosophy, management, and process.

TCW High Dividend Equities Long/Short Fund	Average Annualized Total Return ⁽¹⁾ As of October 31, 2017	
	1 Year	Since Inception

TCW Long/Short Fundamental Value Fund

Management Discussions

The TCW Long/Short Fundamental Value Fund (the “Fund”) commenced operation on September 29, 2017. As of October 31, 2017, the Fund generated a net return of +0.80% for the month versus +2.33% for the S&P 500 Index, the Fund’s benchmark. In addition, the Morningstar Long/Short Equity category and the Russell 2000 Index returned +0.40% and +0.85%, respectively, during the same period.

The divergence between growth and value stocks returned to its 2017 pattern in October with the Russell 2000 Growth Index outperforming the Russell 2000 Value Index 1.5% to 0.1%. This brings Growth’s outperformance of Value this year to almost 13%. Some market pundits have questioned whether value investing is permanently out of favor and others have questioned whether the growth stock trade has become too crowded. Looking back at the history of the market, outperformance of Value vs. Growth tends to go in cycles. Growth stocks tend to outperform during times of increased risk taking, but value stocks have outperformed over the long-term with significantly less volatility.

The Fund’s top three performers were in the financial sector: two insurance companies and a boutique investment bank. Our insurance company holdings have shown resilience in the face of Mother Nature’s destruction in recent months.

The retail sector of the market has suffered this past year. While the S&P 500 is up 16.9% through October, the S&P Retail Select is down 9.3%. Certain components of the retail space are down 80 to 90%. Opportunities are often available when a market sector undergoes this degree of disruption and we have identified pockets of opportunity. We took small positions in two retailers, and they were two of our largest detractors from performance in October following disappointing revenue trends. The overall impact to the portfolio is small since these positions were relatively small. We continue to look for opportunities in segments going through significant disruption, but as always we will proceed cautiously.

(1) A portion of this security is segregated to cover for written options.

(2) SPDR S&P 500 ETF Trust (the "S&P 500 ETF") is a unit investment trust created under the laws of the State of New York and registered under the Investment Company Act of 1940. The S&P 500 ETF was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the component common stocks, in substantially the same weighting, which comprise the Standard & Poor's 500 Index (the "S&P 500 Index"). Each unit of fractional undivided interest in the S&P 500 ETF is referred to as a "Unit". The S&P 500 ETF seeks to provide investment results that, before expenses, correspond generally to the price and yield performance of the S&P 500 Index. You can access the financial statements of this ETF by going to the fund's homepage at (<https://us.spdrs.com/en/etf/spdr-sp-500-etf-SPY>).

Note 1 — Organization

TCW Alternative Funds, a Delaware statutory trust (the “Trust”), is an open-end management investment company registered under the Investment Company Act of 1940, as amended, (the “1940 Act”). The Trust consists of seven separate portfolios (each a “Fund” and collectively, the “Funds”): TCW | Gargoyle Dynamic 500 Fund (“Dynamic 500”), TCW | Gargoyle Dynamic 500 Collar Fund (“Dynamic 500 Collar”), TCW | Gargoyle Dynamic 500 Market-Neutral Fund (“Dynamic 500 Market-Neutral”), TCW | Gargoyle Hedged Value Fund (“Hedged Value”), TCW | Gargoyle Systematic Value Fund (“Systematic Value”), TCW High Dividend Equities Long/Short Fund (“Dividend Equities”) and the TCW Long/Short Fundamental Value Fund (“Fundamental Value”). TCW Investment Management Company (the “Adviser”) is the investment adviser to and an affiliate of the Funds and is registered under the Investment Advisers Act of 1940, as amended. Each Fund’s investment objective and principal strategy are as follows:

TCW Alternative Fund	Investment Objective and Principal Strategy
TCW Gargoyle Dynamic 500 Fund	Seeks greater long-term capital appreciation with reduced risk and lower volatility than the S&P 500 Index. The Fund seeks to achieve this by buying the S&P 500 Index and selling short-term, out-of-the-money SPX Call Options.
TCW Gargoyle Dynamic 500 Collar Fund	Seeks long-term capital appreciation with limited and defined risk of significant loss compared to the S&P 500 Index.
TCW Gargoyle Dynamic 500 Market-Neutral Fund	Seeks long-term capital appreciation regardless of the movement in the S&P 500 Index.
TCW Gargoyle Hedged Value Fund	Seeks long-term capital appreciation with lower volatility than a standalone stock portfolio by mixing a stock portfolio with index call options.
TCW Gargoyle Systematic Value Fund	Seeks long-term capital appreciation by investing in equity securities of medium-large capitalization companies.
TCW High Dividend Equities Long/Short Fund	Seeks long-term capital appreciation by investing in long and short positions in equity securities listed on U.S. financial markets that are considered to have high dividends and in derivative instruments that have economic characteristics similar to such securities. The Fund may also short securities.
TCW Long/Short Fundamental Value Fund	Seeks long-term capital appreciation.

The Funds offer two classes of shares: I Class and N Class. The Classes are substantially the same except that the N Class shares are subject to a distribution fee.

Note 2 — Significant Accounting Policies

The following is a summary of significant accounting policies which are in conformity with accounting principles generally accepted in the United States of America and which are consistently followed by the Funds in the preparation of their financial statements.

TCW Alternative Funds

Notes to Financial Statements (Continued)

October 31, 2017

Principles of Accounting: The Funds use the accrual method of accounting for financial reporting purposes. Each Fund is considered an investment company under the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 946, Financial Services - Investment Companies.

Net Asset Value: The net asset value per share (“NAV”) of each Class of a Fund is determined by dividing the Fund's net assets attributable to each class by the number of shares issued and outstanding of that class at the close of the New York Stock Exchange (the “NYSE”) (generally 4:00 p.m. Eastern Time or 1:00 p.m. Pacific Time, but the NYSE sometimes closes earlier) on each day that the NYSE is open for trading.

Security Valuations: Securities listed or traded on the New York and other stock exchanges are valued at the latest sale price on that exchange. Securities traded on the NASDAQ Stock Market are valued using official closing prices as reported by NASDAQ. Exchange traded derivatives are valued at the mid price, or if no mid price exists then the last trade price; if no trade price exists then they are valued at the bid price, and if no bid price then ask price for both purchased and written options. Swaps and futures are valued at the last sale price, or if no sales are reported, then the last ask price.

Securities for which market quotations are not readily available, including circumstances under which it is determined by the Adviser that prices received are not reflective of a security's market value, are valued by the Adviser in good faith under procedures established by and under the general supervision of the Trust's Board of Trustees.

Fair value is defined as the price that a fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market for the investment. In accordance with the authoritative guidance on fair value measurements and disclosures under the accounting principles generally accepted in the United States of America (“GAAP”), the Funds disclose investments in a three-tier hierarchy. This hierarchy is utilized to establish classification of fair value inputs for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 — quoted prices in active markets for identical investments

Level 2 — other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 — significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments)

Changes in valuation techniques may result in transfers in or out of an investment's assigned Level within the hierarchy. The inputs or methodologies used for valuing investments are not necessarily an indication of the risk associated with investing in those investments and the determination of the significance of a particular input to the fair value measurement in its entirety requires judgment and consideration of factors specific to each security.

Note 2 — Significant Accounting Policies (Continued)

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition, as well as changes related to liquidity of investments, could cause a security to be reclassified between Level 1, Level 2, or Level 3.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair Value Measurements: A description of the valuation techniques applied to the Funds' major categories of assets and liabilities measured at fair value on a recurring basis is as follows:

Equity securities. Securities are generally valued based on quoted prices from the applicable exchange. To the extent these securities are actively traded and valuation adjustments are not applied, they are generally categorized in Level 1 of the fair value hierarchy. Restricted securities issued by publicly held companies are generally categorized in Level 2 or 3 of the fair value hierarchy, depending on the observability of the input. Restricted securities held in non-public entities are included in Level 3 of the fair value hierarchy because they trade infrequently, and therefore, the inputs are unobservable.

Options contracts. Option contracts traded on exchanges are fair valued using market mid prices; as such, they are categorized in Level 1. Option contracts traded OTC are fair valued based on pricing models and incorporate various inputs such as interest rate, credit spreads, currency exchange rates and volatility measurements for in-the-money, at-the-money, and out-of-the-money contracts on a given strike price. To the extent that these inputs are observable and timely, the fair value of OTC option contracts would be categorized in Level 2; otherwise, the fair values would be categorized in Level 3.

The Funds categorized all of their investments and other financial instruments at Level 1, with the corresponding industries as represented in the Schedule of Investments as of October 31, 2017.

The Funds did not have any transfers in and out of Level 1 of the fair value hierarchy during the period ended October 31, 2017.

The Funds held no investments or other financial instruments at October 31, 2017, whose fair value was calculated using Level 3 inputs.

Foreign Currency Translation: The books and records of each Fund are maintained in U.S. dollars as follows: (1) the foreign currency market value of investment securities, and other assets and liabilities stated in foreign currencies, are translated using the daily spot rate; and (2) purchases, sales, income and expenses are translated at the rate of exchange prevailing on the respective dates of such transactions. The resultant exchange gains and losses are included in net realized or net unrealized gain (loss) in the Statements of Operations. Pursuant to U.S. federal income tax regulations, certain foreign exchange

TCW Alternative Funds

Notes to Financial Statements (Continued)

October 31, 2017

gains and losses included in realized and unrealized gains and losses are reclassified to ordinary income for federal income tax purposes.

Security Transactions and Related Investment Income: Security transactions are recorded as of the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recognized on an accrual basis. Realized gains and losses on investments are recorded on the basis of specific identification.

Derivative Instruments: Derivatives are financial instruments whose values are based on the values of one or more indicators, such as a security, assets, currency, interest rate, or index. Derivative transactions can create investment leverage and may be highly volatile. It is possible that a derivative transaction will result in a loss greater than the principal amount invested. The Funds may not be able to close out a derivative transaction at a favorable time or price.

For the period ended October 31, 2017, the Funds had the following derivatives and transactions in derivatives, grouped in the following risk categories.

Note 2 — Significant Accounting Policies (Continued)

Options: The Funds purchase and sell put and call options on securities or indices to enhance investment performance and/or to protect against changes in market prices.

A call option gives the holder the right to purchase, and obligates the writer to sell, a security at the strike price at any time before the expiration date. A Put option gives the holder the right to sell, and obligates the writer to buy, a security at the exercise price at any time before the expiration date. The Funds may purchase put options to protect portfolio holdings against a decline in market value of a security or securities held by them. The Funds may also purchase a put option hoping to profit from an anticipated decline in the value of the underlying security. If the Funds hold the security underlying the option, the option premium and any transaction costs will reduce any profit the Funds might have realized had they sold the underlying security instead of buying the put option. The Funds may purchase call options to hedge against an increase in the price of securities that the Funds ultimately wants to buy. The Funds may also purchase a call option as a long directional investment hoping to profit from an anticipated increase in the value of the underlying security. In order for a call option to be profitable, the market price of the underlying security must rise sufficiently above the exercise price to cover the premium and transaction costs. These costs will reduce any profit a Fund might have realized had it bought the underlying security at the time it purchased the call option.

The Funds sell index call options to partially hedge its stock portfolio. The Funds receive premiums for selling these options. However, selling index call options can limit the Funds' opportunity to profit from an increase in the market value of the stock portfolio to the extent that the index options' value increases above the sum of the option premium received and the exercise price of the call options.

Options purchased or sold by the Funds may be traded on a securities or options exchange. Such options typically have minimal exposure to counterparty risk. However, an exchange or market may at times find it necessary to impose restrictions on particular types of options transactions, such as opening transactions. If an underlying security ceases to meet qualifications imposed by an exchange or the Options Clearing Corporation, new series of options on that security will no longer be opened to replace expiring series, and opening transactions in existing series may be prohibited.

When a Fund purchases an option, it runs the risk that it will lose its entire investment in the option in a relatively short period of time, unless the Fund exercises the option or enters into a closing sale transaction before the option's expiration. If the price of the underlying security does not rise (in the case of a call) or fall (in the case of a put) to an extent sufficient to cover the option premium and transaction costs, the Fund will lose part or all of its investment in the option. This contrasts with an investment by a Fund in the underlying security, since the Fund will not realize a loss if the security's price does not change. Premiums paid for purchasing options that expire are treated as realized losses.

Dynamic 500, Dynamic 500 Collar, Dynamic 500 Market-Neutral, Hedged Value and Dividend Equities wrote call options during the period ended October 31, 2017, to lower the volatility of each Fund while producing additional income. The Dynamic 500 Collar and Dividend Equities purchased put options during the same period to hedge the emerging markets sector.

Option contracts purchased and written by the Funds and outstanding at the end of the respective periods are listed in each Fund's Schedule of Investments.

TCW Alternative Funds

Notes to Financial Statements (Continued)

October 31, 2017

The amount listed on the Statements of Assets and Liabilities as either deposit with brokers or payable to brokers for options, is cash held with or owed to the prime broker, Credit Suisse, to cover the cash movement of opening and closing option trades within the broker's account.

Short Sales: Certain Funds may enter into short sales transactions. A short sale is a transaction in which a Fund sells securities it may not own in anticipation of a decline in the fair value of the securities. Securities sold in short sale transactions and the interest payable on such securities, if any, are reflected as a liability on the Statement of Assets and Liabilities. A Fund is obligated to deliver securities at the trade price at the time the short position is covered. Possible losses from short sales may be unlimited, whereas from purchases cannot exceed the total amount invested.

Allocation of Operating Activity for Multiple Classes: Investment income, common expenses and realized and unrealized gains and losses are allocated among the classes of shares of the Funds based on the relative net assets of each class. Distribution fees, which are directly attributable to a class of shares, are charged to the operations of that class. All other expenses are charged to the Funds or class as incurred on a specific identification basis. Differences in class-specific fees and expenses will result in differences in net investment income, and therefore, could result in differing amounts of distributions made by each class.

Dividends and Distributions: Dividends and distributions to shareholders are recorded on the ex-dividend date. The Funds declare and pay, or reinvest, dividends from net investment income annually. Capital gains realized by the Funds will be distributed at least annually.

Income and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to wash sales rules, excise tax regulations and employing equalization in determining amounts to be distributed to Fund shareholders. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications between paid-in capital, undistributed net investment income (loss), and/or undistributed accumulated realized gain (loss). Undistributed net investment income or loss may include temporary book and tax basis differences which will reverse in a subsequent period. Any taxable income or capital gain remaining at fiscal year end is distributed in the following year. Dividends received from real estate investment trust securities may include return of capital. Such distributions reduce the cost basis of the respective securities. Distribution received, if any, in excess of the cost basis of a security is recognized as capital gain.

Use of Estimates: The preparation of the accompanying financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from these estimates.

Note 3 — Risk Considerations

Market Risk: The Funds' investments will fluctuate with market conditions, and so will the value of your investment in the Funds. You could lose money on your investment in the Funds or the Funds could underperform other investments.

Note 3 — Risk Considerations (Continued)

Investment Style Risk: The Funds may also be subject to investment style risk. The Adviser's investment styles may be out of favor at times or may not produce the best results over shorter or longer time periods and may increase the volatility of the Funds' share price.

Equity Risk: Equity securities may include common stock, preferred stock or other securities representing an ownership interest or the right to acquire an ownership interest in an issuer. Equity risk is the risk that stocks and other equity securities fluctuate in value more than bonds and can decline in value over short or extended periods. The value of stocks and other equity securities will be affected by changes in a company's financial condition and in overall market, economic and political conditions.

Exchange-Traded Funds Risk: ETFs are investment companies that invest in a portfolio of securities designed to track a particular market segment or index and whose shares are bought and sold on a security exchange. The risk of ETFs generally reflects the risk of owning shares of the underlying securities the ETF is designed to track, although lack of liquidity in an ETF could result in its value being more volatile than the underlying portfolio of securities. In addition, an ETF's performance may not match the performance of a particular market segment or index for a number of reasons, including costs incurred by the ETF in buying and selling securities. Assets invested in ETFs will indirectly bear the fees and expenses of the ETF, including operating costs and advisory fees that you, as a shareholder in a Fund, indirectly bear. Additionally, a shareholder may indirectly bear brokerage costs incurred by a Fund when it purchases ETFs.

Derivatives Risk: Use of derivatives involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Investments in derivatives could cause the Funds to lose more than the principal amount invested. Also, suitable derivative transactions may not be available in all circumstances and there can be no assurance that the Funds will engage in these transactions to reduce exposure to other risks when that would be beneficial.

High Portfolio Turnover Risk: The Funds may engage in active and frequent trading of portfolio securities. High portfolio turnover (more than 100%) may result in increased transaction costs to the Funds, including brokerage commissions, dealer mark-ups and other transaction costs on the sale of the securities and on reinvestment in other securities. The sale of Funds portfolio securities may result in the realization and/or distribution to shareholders of higher capital gains or losses as compared to funds with less active trading policies. These effects of higher than normal portfolio turnover may adversely affect Fund performance.

For complete information on the various risks involved, please refer to the Funds' prospectus and the Statement of Additional Information, which can be obtained on the Funds' website (www.tcw.com) or by calling the customer service.

Note 4 — Federal Income Taxes

It is the policy of the Funds to comply with the requirements under Subchapter M of the Internal Revenue Code (the "Code") applicable to regulated investment companies and to distribute all of its net taxable income, including any net realized gains on investments, to its shareholders. Therefore, no federal income tax provision is required.

TCW Alternative Funds

Notes to Financial Statements (Continued)

October 31, 2017

At October 31, 2017 net unrealized appreciation (depreciation) on investments for federal income tax purposes was as follows:

	Unrealized Appreciation	Unrealized (Depreciation)	Net Unrealized Appreciation (Depreciation)	Cost of Investments for Federal Income Tax Purposes
TCW Gargoyle Dynamic 500 Fund	\$ 1,228,373	\$(139,750)	\$ 1,088,623	\$ 6,354,640
TCW Gargoyle Dynamic 500 Collar Fund	104,023	(50,517)	53,506	988,814
TCW Gargoyle Dynamic 500 Market-Neutral Fund	92,151	(95,115)	(2,964)	1,140,707
TCW Gargoyle Hedged Value Fund	8,621,937	(903,476)	7,718,461	29,843,220
TCW Gargoyle Systematic Value Fund	227,856	(57,861)	169,995	1,234,787
TCW High Dividend Equities Long/Short Fund	115,264	(72,416)	42,848	880,955
TCW Long/Short Fundamental Value Fund	26,720	(18,558)	8,162	454,788

At October 31, 2017, the components of distributable earnings on a tax basis were as follows:

	Undistributed Ordinary Income	Undistributed Long-Term Gains	Net Unrealized Appreciation/ (Depreciation)	Other Temporary Differences	Capital Loss Carryforwards	Total Distributable Earnings
TCW Gargoyle Dynamic 500 Fund	\$52,386	\$—	\$1,088,623	\$(15,413)	\$(293,010)	\$832,586
TCW Gargoyle Dynamic 500 Collar Fund	8,043	—	53,506	(1,241)	(37,780)	22,528
TCW Gargoyle Dynamic 500 Market-Neutral Fund	22,356	12,429	(2,964)	(1,280)	—	30,541
TCW Gargoyle Hedged Value Fund	70,749	—	7,718,461	(260,743)	(4,055,732)	3,472,735
TCW Gargoyle Systematic Value Fund	4,148	—	169,995	(5,027)	(41,900)	127,216
TCW High Dividend Equities Long/Short Fund	2,993	392	42,848	(5,195)	—	41,038
TCW Long/Short Fundamental Value Fund	—	—	8,162	—	—	8,162

U.S. GAAP requires that certain components of net assets be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or NAV. The permanent differences are primarily attributable to non-deductible expenses, short dividend expenses and re-characterization of distributions.

TCW Alternative Funds

Notes to Financial Statements (Continued)

October 31, 2017

TCW High Dividend Equities Long/Short Fund	Ordinary Income	Long-Term Capital Gain	Total Distributions
Period ended October 31, 2016	4,933	—	4,933

At October 31, 2017, the following Funds had net realized loss that will carryforward indefinitely for federal income tax purposes:

	Short-Term	Long-Term
TCW Gargoyle Dynamic 500 Fund	\$ 149,405	\$ 143,605
TCW Gargoyle Dynamic 500 Collar Fund	15,112	22,668
TCW Gargoyle Hedged Value Fund	3,055,652	1,000,080
TCW Gargoyle Systematic Value Fund	5,904	35,996

Under the Regulated Investment Company Modernization Act of 2010, the Funds will be permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in the pre-enactment taxable years. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law.

For the year ended October 31, 2017, the TCW | Gargoyle Systematic Value Fund and the TCW | High Dividend Equities Long/Short Fund utilized capital loss carryforwards of \$36,314 and \$45,561, respectively.

Note 5 — Fund Management Fees and Other Expenses

The Funds pay to the Adviser, as compensation for services rendered, facilities furnished and expenses borne by it, annual management fees of a percentage of the Funds' daily net asset value as follows:

TCW Gargoyle Dynamic 500 Fund	0.80%
TCW Gargoyle Dynamic 500 Collar Fund	0.80%
TCW Gargoyle Dynamic 500 Market-Neutral Fund	0.80%
TCW Gargoyle Hedged Value Fund	0.90%
TCW Gargoyle Systematic Value Fund	0.70%
TCW High Dividend Equities Long/Short Fund	0.95%
TCW Long/Short Fundamental Value Fund	1.65%

TCW Alternative Funds

Notes to Financial Statements (Continued)

October 31, 2017

Note 5 — Fund Management Fees and Other Expenses (Continued)

The Adviser, not the Funds, is responsible for the payment of sub-advisory fees to Gargoyle Investment Advisor L.L.C. (“Gargoyle”), as the Sub-Adviser for the Funds listed below. Under the Investment Sub-Advisory Agreement with Gargoyle, the Adviser pays the following sub-advisory fees to Gargoyle as compensation for the services rendered to those Funds listed below:

Fund	Annual Sub-Advisory Fee (As Percent of Average Net Asset Value)
TCW Gargoyle Dynamic 500 Fund	0.40%*
TCW Gargoyle Dynamic 500 Collar Fund	0.40%*
TCW Gargoyle Dynamic 500 Market-Neutral Fund	0.40%*
TCW Gargoyle Hedged Value Fund	0.38% - 0.70%**
TCW Gargoyle Systematic Value Fund	0.35%*

* These amounts may be reduced to the extent there are operating expenses paid by the Adviser or Gargoyle for the applicable Fund.

** Varies based on average net asset value and Fund and Adviser expenses.

The Adviser limits the operating expenses of each Class of shares not to exceed the following expense ratios relative to each Class' average daily net assets:

TCW Gargoyle Dynamic 500 Fund	
I Shares	1.00% ⁽¹⁾
N Shares	1.25% ⁽¹⁾
TCW Gargoyle Dynamic 500 Collar Fund	
I Shares	1.00% ⁽¹⁾

N Shares	1.55% ⁽¹⁾
TCW Long/Short Fundamental Value Fund	
I Shares	2.00% ⁽¹⁾
N Shares	2.25% ⁽¹⁾

(1) These limitations are based on an agreement between the Adviser and the Fund.

TCW Alternative Funds

Notes to Financial Statements (Continued)

October 31, 2017

The amount borne by the Adviser during a fiscal year when the operating expenses of a Fund are in excess of the expense limitation can be recaptured in the subsequent fiscal years should the expenses drop below the expense limitation in the subsequent years. The Adviser can recapture expenses from the Funds for three years from the date they were waived.

At October 31, 2017, the Adviser has available for recoupment the following class specific waivers recorded by the Funds:

Fund	Year	Total Waived	Expiration Date	10/31/2017 Remaining

Trustees' Fees: Trustees who are not affiliated with the Adviser receive compensation from the Funds as shown on the Statement of Operations. Trustees may elect to defer receipt of their fees in accordance with the terms of a Non-Qualified Deferred Compensation Plan. Amounts deferred are recorded on the Funds' books as other liabilities.

Note 6 — Distribution Plan

TCW Funds Distributors ("Distributor"), an affiliate of the Adviser and the Funds, serves as the non-exclusive distributor of each class of the Funds' shares. The Funds have a distribution plan pursuant to Rule 12b-1 under the 1940 Act with respect to the N Class shares. Under the terms of the plan, the Funds compensate the Distributor at a rate equal to 0.25% of the average daily net assets of the Funds attributable to their N Class shares for distribution and related services.

Shares sold	25,000	\$ 250,000
Shares Issued upon Reinvestment of Dividends	—	—
Shares Redeemed	—	—
Net Increase	<u>25,000</u>	<u>\$ 250,000</u>

Note 9 — Affiliate Ownership

As of October 31, 2017, the affiliates of the Funds and Adviser own 54.1%, 99.3%, 92.0%, 7.1%, 100%, 100% and 100% of the outstanding shares of each of the TCW | Gargoyle Dynamic 500 Fund, TCW | Gargoyle Dynamic 500 Collar Fund, TCW | Gargoyle Dynamic 500 Market-Neutral Fund, TCW Gargoyle Hedged Value Fund, TCW | Gargoyle Systematic Value Fund, TCW High Dividend Equities Long/Short Fund and TCW Long/Short Fundamental Value Fund, respectively.

Note 10 — Restricted Securities

The Funds are permitted to invest in securities that are subject to legal or contractual restrictions on resale. Disposal of these securities may involve time consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. There were no restricted securities at October 31, 2017.

Note 11 — Indemnifications

Under the Trust's organizational documents, its Officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Trust. In addition, the Trust entered into an agreement with each of the Trustees which provides that the Trust will indemnify and hold harmless each Trustee against any expenses actually and reasonably incurred by any Trustee in any proceeding arising out of or in connection with the Trustee's services to the Trust, to the fullest extent permitted by the Securities Act of 1933, and the 1940 Act, each as now or hereinafter in force. Additionally, in the normal course of business, the Trust enters into agreements with service providers that may contain indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. However, based on experience, the Trust expects the risk of loss to be remote. The Trust has not accrued any liability in connection with such indemnification.

TCW Alternative Funds

Report of Independent Registered Public Accounting Firm

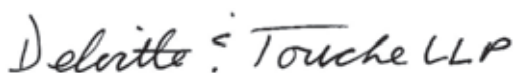

To the Board of Trustees and Shareholders of
TCW Alternative Funds

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of TCW Alternative Funds (the "Funds") comprising the TCW | Gargoyle Dynamic 500 Fund, TCW | Gargoyle Dynamic 500 Collar Fund, TCW | Gargoyle Dynamic 500 Market-Neutral Fund, TCW | Gargoyle Hedged Value Fund, TCW | Gargoyle Systematic Value Fund, TCW High Dividend Equities Long/Short Fund, and TCW Long/Short Fundamental Value Fund as of October 31, 2017, and the related statements of operations for the periods then ended, the statements of changes in net assets for each of the respective stated periods then ended, and the financial highlights for the respective stated periods then ended. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The TCW | Gargoyle Hedged Value Fund financial highlights for each of the two years in the period ended September 30, 2014, before the effects of the adjustments to retrospectively adjust the per share data financial highlights to give effect to the reorganization as discussed in footnote (8) to the financial highlights of TCW | Gargoyle Hedged Value Fund (formerly the RiverPark/Gargoyle Hedged Value Fund) were audited by other auditors whose report, dated November 28, 2014, expressed an unqualified opinion on those financial statements and financial highlights.

We conducted our audits in accordance with the standards of the Public Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principle used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2017, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material aspects, the financial position of each of the portfolios constituting TCW Alternative Funds as of October 31, 2017, the results of their operations for the periods then ended, the changes in their net assets for each of the respective stated periods then ended, and the financial highlights for the respective stated periods then ended, in conformity with accounting principles generally accepted in the United States of America.

We have also audited the adjustments to the financial highlights of the TCW | Gargoyle Hedged Value Fund for each of the two years in the period ended September 30, 2014, to retrospectively adjust the per share data to give effect to the reorganization as discussed in footnote (8) to the financial highlights. Our procedures included recalculating the per share data using the conversion factor discussed in footnote (8) to the financial highlights. In our opinion, such retrospective adjustments are appropriate and have been properly applied. However, we were not engaged to audit, review, or apply any procedures to the financial statements and financial highlights of the TCW | Gargoyle Hedged Value Fund (formerly the RiverPark/Gargoyle Hedged Value Fund) for each of the two years in the period ended September 30, 2014 other than with respect to the retrospective adjustments described herein and, accordingly, we do not express an opinion or any other form of assurance on the financial statements and financial highlights of the TCW | Gargoyle Hedged Value Fund for each of the two years in the period ended September 30, 2014.

TCW Alternative Funds

Shareholder Expenses (Unaudited)

As a shareholder of a TCW Alternative Fund, you incur ongoing operational costs of the Fund, including management fees and other fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example for

TCW | Gargoyle Dynamic 500 Fund, TCW | Gargoyle Dynamic 500 Collar Fund, TCW | Gargoyle Dynamic 500 Market-Neutral Fund, TCW | Gargoyle Hedged Value Fund, TCW | Gargoyle Systematic Value Fund and TCW High Dividend Equities Long/Short Fund is based on an Investment of \$1,000 invested at the beginning of the period and held for the entire period from May 1, 2017, to October 31, 2017 (184 days).

TCW Long/Short Fundamental Value Fund is based on an investment of \$1,000 invested at the beginning of the period and held for the period from September 29, to October 31, 2017 (30 days).

Actual Expenses The first line under each Fund in the table below provides information about the actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes The second line under each Fund in the table below provides information about the hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account value and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

WHAT YOU SHOULD KNOW

TCW, we recognize the importance of keeping information about you secure and confidential. **We do not sell or share your nonpublic personal and financial information with marketers or others outside our affiliated group of companies.**

We carefully manage information among our affiliated group of companies to safeguard your privacy and to provide you with consistently excellent service.

We are providing this notice to you to comply with the requirements of Regulation S-P, "Privacy of Consumer Financial Information," issued by the U.S. Securities and Exchange Commission.

OUR PRIVACY POLICY

We, The TCW Group, Inc. and its subsidiaries, the TCW Funds, Inc., TCW Strategic Income Fund, Inc., the Metropolitan West Funds, and the TCW Alternative Funds, Sepulveda Management LLC and TCW Direct Lending (collectively, "TCW") are committed to protecting the nonpublic personal and financial information of our customers and consumers who obtain or seek to obtain financial products or services primarily for personal, family or household purposes. We fulfill our commitment by establishing and implementing policies and systems to protect the security and confidentiality of this information.

In our offices, we limit access to nonpublic personal and financial information about you to those TCW personnel who need to know the information in order to provide products or services to you. We maintain physical, electronic and procedural safeguards to protect your nonpublic personal and financial information.

CATEGORIES OF INFORMATION WE COLLECT

We may collect the following types of nonpublic personal and financial information about you from the following sources:

- Your name, address and identifying numbers, and other personal and financial information, from you and from identification cards and papers you submit to us, on applications, subscription agreements or other forms or communications.
- Information about your account balances and financial transactions with us, our affiliated entities, or nonaffiliated third parties, from our internal sources, from affiliated entities and from nonaffiliated third parties.
- Information about your account balances and financial transactions and other personal and financial information, from consumer credit reporting agencies or other nonaffiliated third parties, to verify information received from you or others.

CATEGORIES OF INFORMATION WE DISCLOSE TO NONAFFILIATED THIRD PARTIES

We may disclose your name, address and account and other identifying numbers, as well as information about your pending or past transactions and other personal financial information, to nonaffiliated third parties, for our everyday business purposes such as necessary to execute, process, service and confirm your securities transactions and mutual fund transactions, to administer and service your account and commingled investment vehicles in which you are invested, to market our products and services through joint marketing arrangements or to respond to court orders and legal investigations.

We may disclose nonpublic personal and financial information concerning you to law enforcement agencies, federal regulatory agencies, self-regulatory organizations or other nonaffiliated third parties, if required or requested to do so by a court order, judicial subpoena or regulatory inquiry.

We do not otherwise disclose your nonpublic personal and financial information to nonaffiliated third parties, except where we believe in good faith that disclosure is required or permitted by law. Because we do not disclose your nonpublic personal and financial information to nonaffiliated third parties, our Customer Privacy Policy does not contain opt-out provisions.

CATEGORIES OF INFORMATION WE DISCLOSE TO OUR AFFILIATED ENTITIES

- We may disclose your name, address and account and other identifying numbers, account balances, information about your pending or past transactions and other personal financial information to our affiliated entities for any purpose.
- We regularly disclose your name, address and account and other identifying numbers, account balances and information about your pending or past transactions to our affiliates to execute, process and confirm securities transactions or mutual fund transactions for you, to administer and service your account and commingled investment vehicles in which you are invested, or to market our products and services to you.

INFORMATION ABOUT FORMER CUSTOMERS

We do not disclose nonpublic personal and financial information about former customers to nonaffiliated third parties unless required or requested to do so by a court order, judicial subpoena or regulatory inquiry, or otherwise where we believe in good faith that disclosure is required or permitted by law.

QUESTIONS

Should you have any questions about our Customer Privacy Policy, please contact us by email or by regular mail at the address at the end of this policy.

TCW Alternative Funds

Approval of Investment Management and Advisory Agreement and Sub-Advisory Agreement by Trustees (Unaudited)

TCW Investment Management Company LLC (the “Adviser”) provides investment advisory services to the following four series of the Trust, among others not listed below, under the Investment Advisory and Management Agreement dated April 10, 2015, as amended on November 27, 2015 and February 24, 2017 (the “Advisory Agreement”), between the Trust and the Adviser: TCW/Gargoye Hedged Value Fund, TCW/Gargoye Dynamic 500 Fund, and TCW/Gargoye Systematic Value Fund (together, the “TCW/Gargoye Funds”), and TCW High Dividend Equities Long/Short Fund (the “TCW High Dividend Fund”) (the TCW/Gargoye Funds and the TCW High Dividend Fund are referred to, collectively, as the “Funds”). The Advisory Agreement was approved for a two-year initial term with respect to the Funds by the Board of Trustees of the Trust (the “Board”), and by the initial shareholder of each Fund.

Gargoye Investment Advisor L.L.C. (the “Sub-Adviser”) serves as the sub-adviser for the TCW/Gargoye Funds under a Sub-Advisory Agreement dated April 10, 2015, and amended effective November 27, 2015 (the “Sub-Advisory Agreement”) between the Adviser and the Sub-Adviser. The Sub-Advisory Agreement was also approved for a two-year initial term with respect to the TCW/Gargoye Funds by the Board. The Advisory Agreement and the Sub-Advisory Agreement are referred to together as the “Agreements.” Following each Agreement’s initial two-year term with respect to each Fund, each Agreement continues in effect from year to year, provided that the continuance is specifically approved at least annually by the vote of the holders of at least a majority of the outstanding shares of the Funds, or by the Board of Trustees of the Trust (the “Board”), and, in either event, by a majority of the Trustees who are not “interested persons” of the Trust, as such term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended, (the “Independent Trustees”) casting votes in person at a meeting called for that purpose.

On September 18, 2017, the Board approved the renewal of each Agreement for an additional one-year term from November 27, 2017 through November 27, 2018. The renewal of each Agreement was approved by the Board (including by a majority of the Independent Trustees) upon the recommendation of the Independent Trustees. The Independent Trustees met separately by telephone on August 30, 2017, and in person on another occasion, with their independent legal counsel to review and discuss the information that had been requested on their behalf by their independent legal counsel and presented by the Adviser and the Sub-Adviser for their consideration. The information, material facts, and conclusions that formed the basis for their recommendation and the Board’s subsequent approval are described below.

Information received

Materials reviewed - During the course of each year, the Independent Trustees receive a wide variety of materials relating to the services provided by the Advisers, including reports on the respective Adviser’s investment processes, as well as on each Fund’s investment results, portfolio composition, portfolio trading practices, compliance monitoring, shareholder services, and other information relating to the nature, extent, and quality of services provided by the Advisers to the Funds. In addition, the Board reviewed information furnished to the Independent Trustees in response to a detailed requests sent to the Adviser and the Sub-Adviser (together, the “Advisers”) on their behalf. The information in each Adviser’s responses included extensive materials regarding each Fund’s investment results, financial and profitability information regarding the Advisers, descriptions of various services provided to the Funds, descriptions of functions such as compliance monitoring and portfolio trading practices, and information about the personnel providing investment management services to each Fund. The Trustees also considered information provided by an independent data provider, Broadridge, comparing the

TCW Alternative Funds

Approval of Investment Management and Advisory Agreement and Sub-Advisory Agreement by Trustees (Unaudited) (Continued)

investment performance and the fee and expense levels of each Fund to appropriate peer groups of mutual funds. After reviewing this information, the Trustees requested additional information from the Adviser, which the Adviser provided and the Trustees considered.

Review process - The Trustees' determinations were made on the basis of each Trustee's business judgment after consideration of all the information presented. The Independent Trustees reviewed advice regarding legal and industry standards provided by their independent legal counsel, including a legal memorandum from their independent legal counsel discussing their fiduciary duties related to their approval of the continuation of the Agreement. The Independent Trustees also discussed these matters with their independent legal counsel, who assisted them in their review and consideration of the renewal of the Agreements. The Independent Trustees discussed the renewal of the Agreements with each Adviser's representatives and in private sessions at which no representatives of the Advisers were present. In deciding to recommend the renewal of the Agreements with respect to each Fund, the Independent Trustees did not identify any single or particular piece of information that, in isolation, was the controlling factor. Each Independent Trustee may also have weighed factors differently. This summary describes the most important, but not all, of the factors considered by the Board.

Nature, extent, and quality of services

The Independent Trustees reviewed the nature, extent and quality of the services provided by the Adviser and the Sub-Adviser. The Board considered the depth and quality of the each Adviser's investment management process, including its research and analytical capabilities; the experience, capability, and integrity of its senior management and other personnel; and the resources of each organization to support the Funds. The Independent Trustees also reviewed the financial information about each Adviser's organization showing the Adviser's ability to carry out its obligations to the Funds, as well as the experience and qualifications of the key personnel at the Adviser.

The Independent Trustees reviewed the material elements of the oversight of the Sub-Adviser by the Adviser, including the Adviser's prior due diligence on the Sub-Adviser, including analysis of investment management services, past performance, portfolio construction, risk parameters, regulatory issues, compliance and personnel. The Board reviewed the Adviser's proposed monitoring of portfolio activities and risk levels, risk assessment and monitoring of the ongoing condition of the Sub-Adviser, and annual and ongoing review of the Sub-Adviser's compliance program and activities. The Independent Trustees noted that certain information, including the experience and qualifications of the investment personnel at the Sub-Adviser and the services to be provided by the Sub-Adviser, has been discussed extensively among themselves and with representatives of the Sub-Adviser.

The Board and the Independent Trustees concluded that the nature, extent, and quality of the services provided and expected to be provided by the Adviser and, as applicable, the Sub-Adviser should benefit each Fund and its shareholders over time.

Investment results

The Board considered the investment results of each Fund in light of its investment objective(s) and principal investment strategies. They compared each Fund's total returns with the total returns of other mutual funds in peer group reports prepared by Broadridge with respect to various longer and more recent periods all ended May 31, 2017. The Independent Trustees reviewed information as to peer group

TCW Alternative Funds

Approval of Investment Management and Advisory Agreement and Sub-Advisory Agreement by Trustees (Unaudited) (Continued)

selections presented by Broadridge and discussed the methodology for those selections with the Adviser. In reviewing each Fund's relative performance, the Board took into account each Fund's investment strategies, distinct characteristics, asset size and diversification.

The Board noted that each Fund's performance was satisfactory over at least some portion of the relevant periods given the strategies employed and the challenging investment conditions for those strategies. The Board generally considers long-term performance records to be more relevant, and three of the Funds have yet to achieve a long-term record. The Board also recognized the differences, sometime significant, in the strategies and investments employed by funds in the peer group for each Fund, making the use of the peer group comparison less relevant. For that reason, the Board believes that relative performance also should be considered in light of comparisons to the benchmark index used by each Fund, to the Fund's stated objective and in light of expected future market conditions.

The Board concluded that the continued management of the Funds by the Adviser and, as applicable, the Sub-Adviser, should benefit each Fund and its shareholders over time.

Advisory fees and total expenses

The Independent Trustees next considered the management fee under the Advisory Agreement and the expense ratio for each Fund, noting that the Adviser has agreed to operating expense limitations for the Funds under the terms of the Operating Expenses Agreement. They reviewed the management fees and expense ratios of various other comparable mutual funds (the "Peer Funds") and noted that, while the management fee and expense ratio for each Fund are above those for some of its Peer Funds, many of the Peer Funds do not have sub-advisers and do not follow a directly comparable investment strategy. Based on an overall comparison, each Fund generally had a lower total contractual management fee and lower total expenses than the median figures for the Peer Funds, except for the TCW/Gargoyle Hedged Value Fund, which had a slightly higher total expense ratio than the median total expense ratio of its Peer Funds but below the average expense ratio for those Peer Funds. The Independent Trustees noted that the management fee does not include any breakpoints but concluded that it would be more appropriate to consider the sharing of potential economies of scale for a Fund when that Fund reaches a certain size where those potential economies may become apparent. The Independent Trustees noted the arm's-length bargaining between the Adviser and the Sub-Adviser as to the allocation of the advisory fees, and further considered that the sub-advisory fee will be paid to the Sub-Adviser by the Adviser, and not directly by the TCW/Gargoyle Funds, that the Sub-Adviser has agreed to a reduced sub-advisory fee to help keep the TCW/Gargoyle Funds within their respective operating expense limitations, and that no affiliates of the Sub-Adviser will be retained to provide any services to the TCW/Gargoyle Funds.

TCW Alternative Funds

Approval of Investment Management and Advisory Agreement and Sub-Advisory Agreement by Trustees (Unaudited) (Continued)

The Adviser's costs, level of profits, and economies of scale

The Board considered that the Funds are small; three are recently formed funds; and all operate with an expense limitation. For those reasons, the Board recognized that the Adviser is unlikely to realize profits from the Advisory Agreement until the Funds have grown substantially. In addition to on-going subsidies required in order to maintain the expense limitation, the Board also is aware of the substantial expenses incurred by the Adviser from its own resources in order to organize, seed and launch the newer Funds.

As noted above, the Board and the Independent Trustees considered the extent to which potential economies of scale could be realized as the Funds grow, but recognize that the Funds currently are too small to generate any economies of scale.

Ancillary benefits

The Board and the Independent Trustees considered other actual and potential financial benefits to the Advisers in concluding that the contractual advisory fees are fair and reasonable for the Funds. In particular, they noted that the Adviser and Sub-Adviser do not have any affiliates that materially benefit from their respective relationships to the Funds (except for the Adviser's parent company as the controlling owner of the Adviser).

Conclusion

Based on their overall review, including their consideration of each of the factors referred to above (and others), the Board and the Independent Trustees concluded that each Agreement is fair and reasonable to each Fund and its shareholders, that the Funds' shareholders received reasonable value in return for the advisory fees and other amounts paid to the Advisers by each Fund, and that the renewal of each Agreement was in the best interests of each Fund and its shareholders.

TCW Alternative Funds

Supplemental Information

Proxy Voting Guidelines

The policies and procedures that the Trust uses to determine how to vote proxies are available without charge. The Board of Trustees of the Trust has delegated the Trust's proxy voting authority to the Adviser.

Disclosure of Proxy Voting Guidelines

The proxy voting guidelines of the Adviser are available:

1. By calling 800-FUND-TCW (800-386-3829) to obtain a hard copy; or
2. By going to the SEC website at <http://www.sec.gov>.

When the Trust receives a request for a description of the Adviser's proxy voting guidelines, it will deliver the description that is disclosed in the Trust's Statement of Additional Information. This information will be sent out via first class mail (or other means designed to ensure equally prompt delivery) within three business days of receiving the request.

The Adviser, on behalf of the Trust, prepares and file Form N-PX with the SEC not later than August 31 of each year, which includes the Trust's proxy voting record for the most recent twelve-month period ended June 30 of that year. The Trust's proxy voting record for the most recent twelve-month period ended June 30 is available:

1. By calling 800-FUND-TCW (800-386-3829) to obtain a hard copy; or
2. By going to the SEC website at <http://www.sec.gov>.

When the Trust receives a request for the Trust's proxy voting record, it will send the information disclosed in the Trust's most recently filed report on Form N-PX via first class mail (or other means designed to ensure equally prompt delivery) within three business days of receiving the request.

The Trust also discloses its proxy voting record on its website as soon as is reasonably practicable after its report on Form N-PX is filed with the SEC.

Availability of Quarterly Portfolio Schedule

The Trust files a complete schedule of its portfolio holdings with the SEC for the first and third quarters of its fiscal year on Form N-Q. The Form N-Q is available by calling 800-FUND-TCW (800-386-3829) to obtain a hard copy. You may also obtain the Trust's Form N-Q:

1. By going to the SEC website at <http://www.sec.gov>; or
2. By visiting the SEC's Public Reference Room in Washington, D.C. and photocopying it (Phone 1-800-SEC-0330 for information on the operation of the SEC's Public Reference Room).

TCW Alternative Funds

Tax Information Notice (Unaudited)

For the year ended October 31, 2017, the Funds paid a capital gain distribution within the meaning 852(b)(3)(c) of the Code.

<u>Fund</u>	<u>Total</u>
TCW Gargoyle Dynamic 500 Fund	\$5,545

Under Section 854(b)(2) of the Code, the Funds hereby designate the following maximum amounts as qualified dividends for purposes of the maximum rate under Section 1(h)(11) of the Code for the fiscal year ended October 31, 2017:

<u>Fund</u>	<u>Qualified Dividend Income</u>
TCW Gargoyle Dynamic 500 Fund	79.25%
TCW Gargoyle Hedged Value Fund	100.00%
TCW Gargoyle Systematic Value Fund	100.00%
TCW High Dividend Equities Long/Short Fund	100.00%

The following are dividend received deduction percentages for the Funds' corporate shareholders:

<u>Fund</u>	<u>Dividends Received Deductions</u>
TCW Gargoyle Dynamic 500 Fund	78.42%
TCW Gargoyle Hedged Value Fund	100.00%
TCW Gargoyle Systematic Value Fund	100.00%
TCW High Dividend Equities Long/Short Fund	100.00%

This information is given to meet certain requirements of the Code and should not be used by shareholders for preparing their income tax returns. In February 2018, shareholders will receive Form 1099-DIV which will show the actual distribution received and include their share of qualified dividends during the calendar year of 2017. Shareholders are advised to check with their tax advisers for information on the treatment of these amounts on their individual tax returns.

TCW Alternative Funds

Trustees and Officers (Unaudited)

A board of four trustees is responsible for overseeing the operations of the Trust. The trustees and their business addresses and their principal occupation for the last five years are set forth below.

Independent Trustees

Name, Year of Birth and Position with Funds ⁽¹⁾	Term of Office and Length of Time Served	Principal Occupation(s) During Past 5 Years	Other Directorships held by Trustee
Peter McMillan (1957) Chairman	Indefinite term; Mr. McMillan has served as a trustee of TCW Alternative Funds since 2015.	Co-founder, Managing Partner and Chief Investment Officer (since May 2013), Temescal Canyon Partners (investment advisory firm); Co-founder and Managing Partner (since 2000) Willowbrook Capital Group, LLC (investment advisory firm); Co-founder and Executive Vice President (since 2005), KBS Capital Advisors (a manager of real estate investment trusts).	KBS Real Estate Investment Trusts (real estate investments); KBS Strategic Opportunity REITs (real estate investments); Metropolitan West Funds (mutual fund); TCW Strategic Income Fund, Inc. (closed-end fund); TCW Funds (mutual fund).
Patrick C. Haden (1953)	Indefinite term; Mr. Haden has served as a trustee of TCW Alternative Funds since 2015.	Senior Advisor to President (since July 2016) and Athletic Director (2010-June 2016), University of Southern California.	Tetra Tech, Inc. (environmental consulting); The Rose Hills Foundation (charitable foundation); Unihealth Foundation (charitable foundation); Fletcher Jones Foundation (charitable foundation); Mayr Foundation (charitable foundation); First Beverage (beverage consulting); Auto Club (affiliate of AAA); Metropolitan West Funds (mutual fund); TCW Funds (mutual fund); TCW Strategic Income Fund, Inc. (closed-end fund).
Andrew Tarica (1959)	Indefinite term; Mr. Tarica has served as a trustee of TCW Alternative Funds since 2015.	Chief Executive Officer, Meadowbrook Capital Management (asset management company); Employee, Cowen & Co. (broker-dealer).	Metropolitan West Funds (mutual fund); TCW Strategic Income Fund, Inc. (closed-end fund); TCW Funds (mutual fund).
