Foreign Taxes

You are allowed to claim a tax credit or use it as an itemized deduction on your federal income tax return for your share of foreign taxes paid by a mutual fund. In most cases, you will receive more benefit by claiming a tax credit.

The amount reported in Box 7 of Form 1099-DIV represents your portion of the foreign taxes paid by the mutual fund. That amount can be claimed as either a credit or an itemized deduction. We recommend that you consult with your tax advisor regarding the treatment of foreign taxes in your personal situation.

You may also need to report total income from foreign sources. To calculate foreign income, multiply your ordinary dividends (Box 1a of Form 1099-DIV) by the foreign source income factor shown in the table below:
